FDA CLASS 1 DISPOSABLE EARLOOP WITH NOSE CLIP,
NON STERILE 3 PLY BLUE MEDICAL MASK
FDA REGISTERED, EN14683 TYPE II RATED

Ideal for medical procedures where low amounts of fluid, spray and/or aerosols are produced. Also suitable for healthcare staff in a non-clinical environment, as well as industrial settings as personal protective equipment (PPE).

Under the Medical Devices Directive 93/42/EEC, Type II standard masks are suitable to be used in healthcare settings, and are designed to protect the patients and environment from infective agents from the noses and mouths of staff.
